

CONTENTS OF VOLUME 8

Numbers 1 & 2

Special Issue: Polymers in Medicine—4

| | |
|--|----|
| Editorial | 1 |
| Binding of Proteins and Platelets to Gas Discharge-Deposited Polymers | 3 |
| ALLAN S. HOFFMAN, DAVID KIAEI, AGNEZA SAFRANJ, THOMAS A. HORBETT & STEPHEN R. HANSON (USA) | |
| Cell Attachment to PU and PHEMA Based Biomaterials: Relation to Structural Properties | 9 |
| M. KIREMITÇI, A. İ. ŞERBETÇI, R. ÇOLAK & E. PIŞKIN (Turkey) | |
| Thermodynamic and FT-IR Spectroscopic Studies on Heparin-Polycation Interaction | 17 |
| R. BARBUCCI, A. MAGNANI & C. RONCOLINI (Italy) | |
| Surface Structure and Biocompatibility of Polyurethanes | 25 |
| S. AFFROSSMAN, J. C. BARBENEL, C. D. FORBES, J. M. R. MACALLISTER, JIN MENG, R. A. PETHRICK & R. A. SCOTT (UK) | |
| Characterization and Anticalcification Effects of Implantable Polyurethane Matrices Containing Amorphous Dispersion of Bisphosphonic Acid. | 33 |
| GERSHON GOLOMB & DAVID WAGNER (Israel) | |
| Hemocompatibility Evaluation of Poly(Amido-Amine) Polyelectrolyte Complexes | 43 |
| XI TINGFEI, ZHANG JINGCHUAN, TIAN WENHUA, LEI XUEHUI, SONG QI & ZHENG PING (People's Republic of China) | |
| ES-HS from Blood Vessels—A Potent Substance for Inert Nonthrombogenic Polymers | 47 |
| M. EMONDS, E. RUZICKA, G. H. MUCKEL, R. KELLER, U. MÜLLER & H. BAUMANN (FRG) | |
| Comparative Physical Tests on Segmented Polyurethanes for Cardiovascular Applications | 57 |
| M. C. TANZI, L. AMBROSIO, L. NICHOLAIS, S. IANNACE, L. GHISLANZONI & B. MAMBRITO (Italy) | |
| Chemical Modification of Cellulose Membranes with Improved Blood Compatibility | 65 |
| G. MALSCH, D. PAUL, S. KRÄMER, H. WOLF, U. THOMANECK, G. S. BROWN & D. FALKENHAGEN (FRG) | |
| New Biocompatible Polyurethane-Type Copolymer with Low Molecular Weight Heparin | 71 |
| M. A. MAZID, E. SCOTT & NAI-HONG LI (Canada) | |
| Development of Small-Diameter Vascular Prostheses which Release Bioactive Agents | 81 |
| G. SOLDANI, M. STEINER, P. M. GALLETTI (USA), L. LELLI, M. PALLA & P. GIUSTI (Italy) | |
| Suppression of Phagocytosis in Patients on Complement Activating Dialyzers | 89 |
| R. VANHOLDER, M. WATERLOOS, N. VAN LANDSCHOOT & S. RINGOIR (Belgium) | |

| | |
|---|-----|
| Fibrinopeptide A and Protein C Modifications Induced by Polyester Filters | 95 |
| E. CENNI, S. STEA, L. SAVARINO, P. PESCI, D. CAVEDAGNA & A. PIZZOFERRATO (Italy) | |
| Biocompatibility of Two Different Cured Polyepoxy Composites | 99 |
| G. PELUSO, M. RANIERI, L. AMBROSIO, M. CINQUEGRANI, L. NICOLAIS & G. TAJANA (Italy) | |
| Poly(Ether Urethane Amide)s: A New Family of Biomedical Elastomers | 105 |
| D. COHN & A. PENHASI (Israel) | |
| The Effect of Thermal History on the Crystallinity of Different Molecular Weight PLLA Biodegradable Polymers | 111 |
| C. MIGLIARESI, A. DE LOLLI, L. FAMBRI (Italy) & D. COHN (Israel) | |
| Body-Absorbable Osteosynthesis Devices | 119 |
| DEGER C. TUNC (USA) | |
| Glass-ionomer Cements in Orthopaedic Surgery: Design of Laboratory Tests | 125 |
| ELEANOR A. WASSON & JOHN W. NICHOLSON (UK) | |
| Physical Characterization of Acrylic Bone Cement Cured with New Accelerator Systems | 131 |
| M. C. TANZI, I. SKET, A. M. GATTI & E. MONARI (Italy) | |
| Hydroxyethyl-Methacrylate Dentin Bonding Agents: Shear Bond Strength, Marginal Microleakage and SEM Analysis | 137 |
| CARLO PRATI, ROMANO MONGIORGI, GIOVANNI VALDRÈ & GIANNI MONTANARI (Italy) | |
| Photocured Dental Restorative Materials: Effect of Exposure Time on Curing, Glass Transition, Modulus and Water Sorption | 145 |
| JAN KOLARIK, CLAUDIO MIGLIARESI, PAOLA CAPUANA & LUCA FAMBRI (Italy) | |
| Piezoelectric Characteristics of a Polyhydroxybutyrate-Based Composite | 155 |
| J. C. KNOWLES, F. A. MAHMUD & G. W. HASTINGS (UK) | |
| Micron-Size Monodisperse PS/PA Beads by Phase Inversion Polymerization for Biomedical Applications: Preparation and a Case Study | 159 |
| E. PIŞKIN, S. A. TUNCEL, M. T. ERCAN & B. E. CANER (Turkey) | |
| Structural Properties and Biocompatibility of Polymers used in Ophthalmology | 165 |
| A. BERTOLUZZA, P. MONTI, C. R. ARCIOLA & A. PIZZOFERRATO (Italy) | |
| Hyaluronate Derivatives and their Application to Wound Healing: Preliminary Observations | 171 |
| JEFFREY M. DAVIDSON, LILLIAN B. NANNEY, KENNETH N. BROADLEY, JEFFREY S. WHITSETT, ANTONIO M. AQUINO (USA), MAURO BECCARO & ALESSANDRO RASTRELLI (Italy) | |
| Calendar of Events | 179 |

*Numbers 3 & 4***Special Issue: Wound Healing**

| | |
|---|-----|
| Editorial. | 181 |
| Evolution of Wound Dressings and their Effects on the Healing Process | 183 |
| DAVID T. ROVEE (USA) | |
| The Influence of Extracellular Matrix upon Keratinocyte Behavior | 189 |
| MARGARET I. STEWART & DAVID T. WOODLEY (USA) | |
| The Role of the Immune System in the Regulation of Wound Repair | 197 |
| MARK C. REGAN & ADRIAN BARBUL (USA) | |
| Venous Ulceration | 203 |
| CLAUDE S. BURTON (USA) | |
| Pressure Ulcers: Critical Considerations in Prevention and Management | 209 |
| OSCAR M. ALVAREZ (USA) | |
| The Biology and Therapeutic Implications of Fetal Wound Healing | 223 |
| MICHAEL T. LONGAKER & N. SCOTT ADZICK (USA) | |
| Regulation of Cutaneous Wound Healing by Growth Factors | 229 |
| DAVID R. KNIGHTON, VANCE D. FIEGEL & GREGG D. PHILLIPS (USA) | |
| The Effects of Biological Wound Dressings on the Healing Process | 243 |
| S. RANDOLPH MAY (USA) | |
| Clinical Protocols for Studying Wound Healing | 251 |
| GERIT D. MULDER (USA) | |
| Diabetic Skin Ulcer Classification for Clinical Investigations | 257 |
| ROGER E. PECORARO (USA) | |
| Clinical Assessment/Measurement of Healing: Evolution and Status | 263 |
| DIANE M. COOPER (USA) | |
| The Diabetic Foot: Medical Management of Foot Ulcers | 273 |
| GERIT D. MULDER & NICHOLAS TEPELIDIS (USA) | |
| Calendar of Events | 279 |
